

**PRICE
CHANGER
SERIES**

Are you looking for an affordable LED digit display solution for those fluctuating prices? DADSCO has the answer with our Price Changer Series.

Petroleum marketers and motel managers looking for a reasonable LED digit solution will not be disappointed with the remarkable flexibility and revenue enhancement they'll receive with DADSCO'S Price Changer series.

Extremely visible from far distances, the price changer series also features an improved controller design, making it easier for convenience store employees to change the displayed price via handheld remote control.

Benefits

- Available in Tri-Color allowing you to show two prices in different colors
- Reduce liability concerns from manual price changing
- Station Employees no longer endure weather conditions to change prices
- Store never left unattended

Available secondary display to show any combination of REG, DIESEL, CASH, CREDIT in red or green
